Louis XIV Regence Carved, Molded Openwork Regilded Wood Console Table

In collaboration with ArtScience Museum at Marina Bay Sands, the Kraemer Gallery is proud to exhibit pieces from its art collection for the first time in Southeast Asia.

From now until the Chinese New Year in early February 2013, the Kraemer Gallery is celebrating 'The Final 100 Days of the Year of the Dragon' (2012-2013) in a rare showcase of authentic Asia-inspired artistic furniture and ornaments culled from its famed collection in Paris. The result is an exhibition that pays homage to both Chinese and French civilisations, cultural friendships, and the tradition of trade that has existed for centuries. The collection pieces are being displayed "on the water" throughout the hotel lobby of Marina Bay Sands.

Founded in Paris in 1875, the Kraemer Gallery is the city's oldest specialising in French 18th century furniture and decorative arts.
